

MAKE AN ENTRANCE

with **Visage**[®] custom-built high security composite doors

Visage[®] *Beautifully made. Reassuringly strong.*

Visage®

Beautifully made. Reassuringly strong.

Historically, the choice of entrance door has been limited to timber, which can expand, contract or warp and requires regular maintenance or PVCu which lacks the authentic wooden door look and can expand and warp.

GRP faced composite doors offer the perfect alternative

The skins on our door are manufactured from GRP (Glass Reinforced Polyester). They are compression moulded to give a high definition panel design which offers authentic timber appearance and the thermosetting manufacturing process means that they are unaffected by variations in temperature.

The stiles and rails are of a water resistant composite material and are bonded to the skins.

The insulating core consists of 100% CFC-free polyurethane which provides superior thermal performance and enhances the doors soundproofing.

The finished product is a door which is strong, stable, durable, secure and which is indiscernible from timber.

Outer Frame

Specially designed 70mm uPVC outer frame with dual seal weather proofing and a choice of thresholds to meet every requirement including new regulations for mobility access.

Glazing

24mm toughened safety glass double glazed units with a choice of decorative glass to further enhance the appearance of your door.

All doors come with high security multipoint locking with a choice of finishes that meet the requirements of the latest B.S.I. security standards.

The first impression a visitor gets of a home is the front door and it is important both for the home and the owner that it looks its best.

**40 DOOR
DESIGNS**
to choose from

The benefits of purchasing a GRP Door

Energy efficient & environmentally friendly

The panel has nine times better insulation than a timber door Polyurethane core is 100% CFC-free and offers enhanced sound and heat insulation

Stable

The thermoset manufacturing process means the panel will not expand or contract with changing temperature Will not bow, warp, crack, splinter or dent

Strong & Durable

High impact-resistant GRP (Glass Reinforced Polyester) skins 44mm thick leaf for increased security

ECO FRIENDLY

ALL VISAGE COMPOSITE DOORS COMPLY WITH CURRENT BUILDING REGULATIONS AND CAN ACHIEVE AS LOW AS 0.9 W/M²K

Technologically Advanced

Pre-pigmented skins are easy to maintain
Engineered composite rails and stiles which completely seal the insulating core

Authentic Appearance

Woodgrain effect is indistinguishable from timber
Compression moulded, high-definition panel display
Authentic through colour skins
Available in a range of styles and sizes
Accepts a wide range of glazing options

Technical Specification

1. Low maintenance, robust and easy clean surface. Manufactured for strong impact strength and both thermal and UV stable, using G.R.P skins
2. Steel reinforced 70mm PVCu frame, extruded to B7413 specifications
3. Adjustable high security hinges
4. Cassette system with 24mm toughened glass unit
5. 5 point Yale multipoint locking system with high security hookbolts and Anti lift bolts that meet police preferred security specification.
6. Optional automated locking available
7. Fully sealed door leaf to prevent water penetration
8. Embossed woodgrain texture for traditional looks and feel of timber
9. Stylish stainless steel handles for ultimate corrosion free performance with a "slam shut" option
10. Stylish stainless steel 180° letterplates for ultimate corrosion free performance
11. High thermal and sound insulation up to 9 times more insulation than a timber door

Optional high performance, low aluminium threshold providing wheelchair access, improved looks and weatherability (as shown on page 31)

Why not ask about our Secured by Design upgrade?

"Secured by Design" is the official UK Police initiative supporting effective crime prevention and security standards for a large range of products.

- The SBD logo is the only symbol that guarantees national Police approval of a product.
- "Visage" doors meet the "Police Preferred Specification" and as such are "Secured by Design"
- SBD option will improve your security and you may even get a discount on your home Insurance Cover.

Infinity Glass

Bamburgh - Elegant and Contemporary

As the Bamburgh is a number one choice among our customers we now provide a far greater selection of decorative styles. Many of our glass models are brand new and are reflective of the very latest technology in the industry. All decorative designs are hand crafted and small inclusions and uneven surfaces are all part of the handcrafted character of the glazing and should not be deemed as a fault.

A choice of backing glass should be made for all glass shown except for types marked with which have a degree of privacy built in and do not have an obscure backing option.*

Ultimate Bevel

Winchester.

Period Elegance

This classic art deco style door is the perfect option for period homes. Replicating timber aesthetics, Winchester benefits from high placed glazing that brings light into your hallway while maintaining privacy. Choose decorative glass to complete the traditional appearance or opt for frosted glazing for a contemporary twist.

Tudor Rose

PVCu Side Screens

Majestic with matching panels

It has been an industry problem for some time that when composite doors have non standard side panels the decorative glass does not match well or if at all across the whole doorset. We are now proud to offer a solution to this problem with a lavish range of suited adjustable side panel options.

Key Benefits

Each decorative design is perfectly suited to carry luxury decorative glass designs from the door through to the side panels.

- Our classic Majestic and Infinity side panel combinations use new and patented technology.

Infinity with matching side panel

The Majestic and Infinity side panel design are available in a range of frame widths from 264mm to 614mm and frame heights from 1814mm to 2114mm. Horizontal break lines within the side panel are not designed to match the glass panel in the door.

Optional backing glass patterns can be chosen.

Composite Side Screen options

Composite side screen panels are available in all colours to match the Bamburgh, York or Conway styles. We recommend these frames are split. Minimum sizes are 1203mm wide with a single side screen and 1571mm with a double.

Any Pilkington glass can be specified as a backing glass to all types without a * against them. For glass shown with * in your main door, we recommend Stippolyte or Contora in the sidescreens as the nearest match. Always check with your supplier before choosing.

Stippolyte

Colour Matched Drip Bars

Colour matched drip bars to improve weatherability that blend perfectly into the colour of your door

Low Threshold Option

Our accessories include a low Aluminium threshold door sill, which improves access.

Enclosed Mini-blinds

An enclosed mini-blind is the perfect solution for controlling light and UV levels in your home – or simply giving you more privacy. The mini-blind is enclosed within two panes of glass in an aluminium frame that will never need painting. It is controlled using a metallic tab rather than the traditional cord, so it is completely safe for children. And because the blind and the mechanism are totally enclosed, both are completely protected from damage and dust, making them easy to maintain.

Our mini blinds are handed for left or right, allowing the blind to be raised and tilted by control tabs on the hinge side of the door and not interfere with the operation of the door handle.

Tilt Tab

Choose whether to have the blinds open or closed

Raise Tab

Choose whether to have the blinds raised or lowered

Safe & Secure

Our composite doors feature multi-point locking, securely fastening the door to a fully reinforced frame with a combination of hookbolts and deadbolt. Additional option of a traditional slam shut facility.

Locking options include:

- Handle operated hookbolts as standard
- Slam shut facility* whereby when the door is closed it can only be opened from the outside with a key
- Stable door locking, features handle operated hookbolt and deadbolt to top, thumb turn operated and deadbolt and internal shoot bolt to bottom.
- Autolocking options.

* Please note that for complete security the locks should be fully engaged by lifting the handle and engaging the key

For the Ultimate Security Cylinder Upgrade choose YALE Platinum 3*

Nickle finish only

- Advanced multi pin tumbler mechanism
- TS007 3 star Kite-marked Secured by Design

What to look for in a door

We're confident you can't buy better!

The outward appearance of most replacement doors can be almost identical, but don't be fooled into thinking that all composite doors are more or less the same. The quality of materials, construction, overall design, locking and weatherproofing systems can vary immensely from manufacturer to manufacturer. To help make you aware of the features you should consider when buying composite doors, we've listed the main things to look for on this easy to use checklist. The specifications shown are standard on every Visage® door (unless shown as optional) and, as one of the very best systems on the market, we're convinced you can't buy better. But don't just take our word for it!

To compare our products with that of any of our competitors, please feel free to fill in the check boxes below.
